11. **LIGHT CIDER or PERRY** (The Mitchell Cup)
12. **THE PEOPLE'S THREE COUNTIES CIDER CHAMPION.** **ONLY** open to paid up members of The Three Counties Cider & Perry Association (TCCPA) and whose production facilities are based in Gloucestershire, Herefordshire or Worcestershire and/or who sources the majority of their fruit from these three counties. Further information is available overleaf.

**This Championship is
organised by:**

***The Three Counties
Cider & Perry
Association***

- Entries for each class (except Classes 11 & 12) to be in TWO 75cl. bottles (alternatively TWO 1 litre bottles, THREE 50cl. bottles or FOUR 33cl. bottles are acceptable) with suitable closures and tie-on label attached to the neck of each bottle. Alternatively, canned products can be entered, with labels affixed accordingly. Every label must carry the makers name, address, tel. no., class number and class name.
- **Other than for Class 12 entries, all other labels and identifying marks MUST be removed or completely covered.**
- **Class 7 & 9** entries (Bottle Fermented products) must be in suitable heavy weight punted bottles (e.g. "Champagne" type) with a "mushroom" type stopper, which is correctly wired down. These products should be made in-line with the following production processes:
 - After a primary alcoholic fermentation (usually followed by racking and maturation), a secondary alcoholic fermentation is undertaken in-bottle. Subsequently, the bottled product is riddled, the yeast sediment is removed by disgorging and the bottled is topped-up with a sugar syrup **or** additional fermented product **or** clear juice ("dosage"). The resulting in-bottle fermented product should be clear of **all** sediment or haze.
- **Class 8 & 10** entries (Bottle Conditioned products) must be in suitable bottles that are able to with-stand any pressure generated within the bottle, the bottles must have appropriate closures and should be produced in-line with the following production processes:
 - Either after **or** part the way through a primary alcoholic fermentation, a secondary (or continuing) alcoholic fermentation is undertaken in-bottle. Unlike Bottle Fermented products, where carbonation levels are typically high (giving ca. 6 bar pressure at 20°C), Bottle Conditioned products typically have much lower levels of carbonation and are not subjected to riddling and disgorging. The resulting product will usually contain sediment or haze.
- **Class 11** entries (Light Cider or Perry) must be a commercially available product, with an alcohol content **NO higher than 4.0% ABV** and a **Specific Gravity (S.G.) LESS than 1.020** in the final product as available for sale to the consumer. **Further information about this class can be found overleaf.**
- All styles of cider and perry are allowed but entries must be produced by the entrant and produced in-line with the current accepted standards & definitions of "cider" and/or "perry" of the source country concerned. Such definitions are typically contained in excise tax regulations (e.g. Notice 162 in the UK).

Class 11 – LIGHT CIDER OR PERRY

- This class is sponsored by Mitchell F&D limited in recognition of the need to encourage the responsible consumption of alcoholic beverages and to help in the reduction of the calorific value of drink products consumed. Lowering the level of alcohol and capping the maximum amount of sugar in the ciders & perries available for sale is **one** - of a number of different ways - these two objectives can be achieved.
- A cup, to be engraved & kept for display for a year, along with an engraved glass trophy, to keep in perpetuity, will be given to the overall winner of this class.
- As a pilot trial in 2016, this class will be judged by the expert judging panel **and** also by visitors to the Cider Show on Friday. To provide a final score, equal weighting will be given to that of the judging panel **and** the general public who participate in the voting.
- Ciders & perries to be entered must be commercially available and can therefore include draught, bag-in-box, bottled, canned, pouched or otherwise packaged final products. A suitably affixed label must carry the makers name, address, tel. no., class number and class name. **All other labels and identifying marks MUST be removed or completely covered.**
- So as to ensure sufficient cider or perry is available for the judging and sampling by show visitors, a **minimum of 6 litres** of product should be provided (e.g. 12 x 500ml bottles, 8 x 750ml bottles, 2 x 3 litre bag-in-boxed product). Any remaining product after the judging has finished may be collected by the producer if required.
- Random samples of entries may be checked for their alcohol content and Specific Gravity.

Class 12 - THE PEOPLE'S THREE COUNTIES CIDER CHAMPION

- **Class 12 is ONLY** open to paid up members of the TCCPA **and** whose production facilities are based in Gloucestershire, Herefordshire or Worcestershire /or who sources the majority of their fruit from these three counties.
- Only cider, as defined by the current version of HMRC's Notice 162, may be entered into this Class.
- Each producer may only enter **one** cider. The product concerned must be available for retail sale to the public at this year's Royal Three Counties Show and on an ongoing basis.
- The class will be judged by members of the public, who are 18 years old and over and who visit the show on the Friday, Saturday or Sunday.
- Each visitor is only allowed one vote.
- All members of the public who visit the show will be invited to participate in the judging, which will involve:
 - Following a designated "Cider Trail" of cider producers. The "Cider Trail" will include eligible individual cider producers who have their own stand in the Cider Show and elsewhere in the show ground
 - Tasting those ciders entered into this class - samples of which will be provided free of charge.
 - In addition to an appraisal being made of the cider being tasted, visitors will also be asked to evaluate the overall impression they have of the producer concerned, the quality of the stand plus additional & supporting information about the product (e.g. tasting notes) and overall engagement between the visitor and producer concerned at this show.
 - By completing and handing in a simple questionnaire, each individual visitor will nominate **one** cider and its associated producer that they consider to be the Three Counties Cider Champion.
 - On the Sunday of the show, the final votes must be handed in by 3pm at the latest.
- Administration of the judging, including the handing out of and collecting in voting slips and counting the votes, will be undertaken by staff of the Three Counties Society (TCS).
- Other than promoting the Championship itself, every member of the TCCPA and any other cider producer or interested party associated with this overall Cider & Perry Championship (whether entrants or not) is expected to act in good faith with respect to influencing the judging and votes being cast so as to avoid anything that could be perceived as being dishonest or unfair.
- After all votes have been counted, show certificates will be presented for the 1st, 2nd and 3rd prize at 4pm on the Sunday afternoon of the show. In addition, the producer who won 1st prize will be:
 - Provided with a cup to be engraved with their name (to be handed back before next year's competition);
 - An engraved glass trophy which is theirs to keep in perpetuity;
 - Offered a discounted stand in the food hall at the forthcoming Malvern Autumn show in September.
 - 2 Free entry tickets to the Malvern Autumn Show
 - Short-listed for the overall Three Counties Food & Drink Champion (*for the subsequent year*) that is to be awarded in November of each year at the Malvern Farming Conference.
- The other winners (2nd & 3rd prize), in addition to their certificate, will receive 2 free entry tickets to the Malvern Autumn Show.
